

Dear friends all over the known World.

Now it is December again and time to get the latest news from us.

This year has gone far too fast, don't know why, maybe our age or the clock really ticks faster these days. Darcy and Timm spent 3 weeks with us in the summer and spoiled us by inviting us to a two stars stay in Puymirol in Gascogne. It was fantastic a real experience for life. Thank you again.

As usual they helped with the tough stuff in the garden and our mid-summer BBQ and bonfire party. We where 26 people for whole roasted piglet, with the wine flowing and ending with the traditional "Grundlovs kage".

Helga our Danish friend came to stay for a week. So nice to see her again.

We only went on two small vacations in France together with our dogs this year, at our age quality rather than quantity counts.

Life is good to excellent here and we are lucky to have so many really good friends around. We celebrate and meet often and feel lucky to have this small network of many ages, nations and background.

Christmas this year already starts the 2 December and goes on nonstop the whole of December and after.

As a conclusion life in France is "reasonable".

Love and regards from Puk and Ole not to forgets **MANY** vuffs from Jika and a few from Chanel.

And by the way you are welcome anytime

Below are a few photos without words of daily life and family and friends

**And finally we should not forget to wish you all
a MERRY CHRISTMAS and a HAPPY NEW YEAR**
